# Eclipt Administrator Course

Eclipt - FlagStone Evolution...

The internationally approved pioneering range of FlagStone Eclipt Fully Encrypted Hard Drives offer unparalleled lines of defence against the loss or theft of Data at Rest from any laptop, desktop or tablet computer.

## Course Content Overview

Who are CESG? What is CAPS/CLAS?  
What is DIPCOG?  
Types of Encryption  
Types of Eclipt - Product Overview  
Installation and Management via CLI and EMA  
Accounts - types, add, remove, suspend, activate, authenticate  
Data Recovery  
EMA Software Upgrade  
Imaging Techniques

## Details

**Course:** Stonewood Eclipt Administration

**Duration:** 1 Day

**Cost:** £500 per delegate

**Location:** SBL, York or customer site. Contact us on 01347 812100 to discuss holding a training course at your site.

Please note that all of our training courses can be tailored to meet your specific needs - to discuss further contact us on 01347 812100.

## How to Book

To book a place on this course, or for further information, simply email us on [training@softbox.co.uk](mailto:training@softbox.co.uk) or phone **01347 812100**.

Eclipt represents the next generation of Stonewood hardware encrypted drives, and in addition to CAPS approval is DIPCOG and FIPS approved and has been tested by the NATO Infosec Technical Centre.

FlagStone has evolved into Eclipt, with an array of new and improved features making it even more user-friendly and flexible to suit every organisation, without compromising the level of data protection. The Eclipt family includes:

Eclipt Baseline - Restricted  
Eclipt Baseline Plus - Confidential  
Eclipt Enhanced - up to Top Secret

Eclipt comes in two variants; internal drive and external USB drive. In addition to increased capacity up to 120GB for internal drives, Eclipt also offers support for 128 User Accounts per drive and two factor authentication.

SBL is pleased to support the release of the Eclipt suite of products by offering a one-day training course which will introduce you to the new products, explain the new features and teach delegates how to deploy the new products on their devices.

This course is aimed at IT Security Professionals and Network Administrators. Drawing on our experience providing encryption services to the MoD, Government agencies and police forces across the UK, we will ensure that you obtain the knowledge you need to confidently manage your Eclipt assets.

For more information on this or any of our courses, talk to your SBL account manager or contact us on

# Eclypt Administrator Course

## Agenda

### General Introduction

- Introduction
- Course objectives
- Your objectives
- Who are Stonewood and SBL?

### Types of Encryption

- File & drive
- Virtual hard drive
- Software
- Hardware

### Eclypt Products

- Account
- Keys
- Installation
- Components
- Administration
- Token programming
- Initialisation
- Protected authentication

### EMA & CLI Operation

- Loading
- Initialisation
- Administration
- Policies
- Users
- Deleting accounts
- Passwords
- Migrate DEK
- Purge & reinitialise
- Refresh disk
- Add/delete users
- Managing passwords
- Key & drive administration
- Token loss
- Data recovery
- Imaging

### Practical Session

### Questions & Answers

**E C L Y P T**  
FLAGSTONE EVOLUTION

**Eclypt**  
Hardware Encryption at its Best

Eclypt PICOfreedom

Eclypt Freedom

Eclypt Internal
