How to Book

To book a place on this course, or for further information, simply email us on training@softbox.co.uk or phone **01347 812100**.

FlagStone technology safeguards data by integrating sophisticated authentication, entire disk encryption and data storage into tamper-proof internal and portable hardware.

Chosen by the world's foremost financial, banking and medical corporations, as well as military and Government agencies across the world, FlagStone technology incorporates leading edge security methods to protect both corporate and Government data.

Aimed at Security Professionals, Network Administrators or Technical Support, this course imparts the knowledge required to select the correct FlagStone product for your organisation. Building upon our very own experiences in providing installation retro fit services to military, Government and police forces, we offer exceptional training in installation and support for these products.
