Training Courses Overview

Experience Coun

APPROVED SECURITY PRODUCT OVERVIEW

This course provides an overview of, and familiarisation with, approved products in four distinct areas; data at rest, data in transit, peripheral access control and security for mobile devices. Delegates will be shown examples of solutions in all of these areas, and discuss the advantages and disadvantages of one product over another.

JUL	26-27	1.5 days
AUG	5-6	
SEP	7-8	£500

BECRYPT DISK PROTECT

This course is aimed at IT Security Professionals, Network Administrators & Technical Support personnel who are responsible for implementing Becrypt within networked or standalone environments. By the end of this course you will have a full understanding of the features of the Becrypt DISK Protect product.

JUL	8,20	1 day
AUG	12,26	
SEP	16,30	£450

BECRYPT MEDIA CLIENT

Becrypt Media Client Baseline provides file and folder encryption to protect data while in transit on removable media including USB devices, CDs and DVDs. The data is protected by a strong password prior to the data being accessed.

JUL	7,21	0.5 days
AUG	11,25	
SEP	15,29	£300

STONEWOOD FLAGSTONE ADMINISTRATION

Aimed at IT Security Professionals, Network Administrators & Technical Support personnel, this course imparts the knowledge required to select the correct FlagStone product for your organisation. Building upon our experiences providing mobile device encryption services to MoD, Government and Police Forces across the UK, we offer exceptional training and support for these products.

JUL	7,21	0.5 days
AUG	11,25	
SEP	15,29	£300

STONEWOOD ECLYPT ADMINISTRATION

SBL is pleased to support the release of the Eclipt suite of products by offering a one-day training course which will introduce you to the new products, explain the new features, and teach delegates how to deploy the new products on their devices.

JUL	6,22	1 day
AUG	10,24	
SEP	14,28	£500

CHECK POINT MEDIA ENCRYPTION (ME)

This course is aimed at IT Professionals, Network Administrators and Technical Support personnel who are responsible for implementing ME (Disknet Pro) within a networked or standalone environment.

JUL	15	1 day
AUG	17	
SEP	2	£550

CHECK POINT FULL DISK ENCRYPTION (FDE)

Our Training Consultant's in-depth product knowledge and comprehensive instruction will allow you to maximise the benefits of Check Point Full Disk Encryption. We provide delegates with the opportunity to gain practical hands-on experience, reinforcing product knowledge and enhancing the learning experience.

JUL	13-14	2 days
AUG	18-19	
SEP	20-21	£675

CRYPTO CUSTODIAN REFRESHER

The Custodian Refresher course has been designed to provide revision to current Custodians and as an introduction course for new Custodians. The course focuses on the minimum national standards and procedures for the safe-keeping of cryptographic or accountable materials. The course is predominantly hands-on and will demonstrate examples of accounting, prefaced by a synopsis of the threat to protected material.

JUL	19	1 day
AUG	16	
SEP	1	£600

INTRODUCTION TO INFORMATION SECURITY

This course explores the basic pillars of security - technical, procedural, personnel and physical. The course will provide delegates with a clear understanding of the principles behind information security and the threats, risks and recommendations. The knowledge you acquire will allow you to focus resource on the critical areas in the fight to secure your information.

JUL	1	1 day
AUG	3	
SEP	22	£400

SECURE WIFI IN A DAY

This course should be viewed as a way of gaining a better understanding of wireless security - the issues, the risks, and the solutions.

JUL	28	1 day
AUG	2	
SEP	23	£400
